

KIMBERLY-CLARK PROFESSIONAL\* understand the pressure of managing costs whilst maintaining high levels of hygiene and efficiency.

We believe that our combination of innovative products, excellent customer support and experience can help you.

## Why Work With Us?

Our relationship with leading European food manufacturers has given us an understanding of the industry pressures and legislative issues which you face. This has led us to develop a wide range of product solutions designed to meet your washroom, wiping and protective clothing needs especially in the areas of;

- ✓ Washing and drying hands
- ✓ Cleaning debris/spillages from conveyors
- ✓ Cleaning during product changeovers
- ✓ Deep cleaning

### Our solutions always deliver:

#### Consistent Quality

We are committed to quality as we understand the importance of consistently high performing products. All of our manufacturing sites operate with Good Manufacturing Practices (GMP) and use the latest process control techniques to ensure that our products perform in the same way every time.

#### A Focus on Hygiene

All food must be manufactured under stringent hygienic conditions, therefore we offer consistent systems to comply with your vigorous cleaning procedures, thus helping to improve your hygiene in critical applications.

#### Cost Effectiveness

KIMBERLY-CLARK PROFESSIONAL\* will conduct a site needs analysis to help identify risks within your operations. Cost effective solutions are then trialed to help eliminate or reduce these risks and prevent any food recall.

#### Improved Productivity

We have developed a range of wiping solutions to quickly remove debris and tackle dried or carbonized food residue, helping to reduce downtime and increase machine efficiency.

## KIMBERLY-CLARK PROFESSIONAL\* Always There When You Need Us

### Our Brand is Our Difference

The KIMBERLY-CLARK PROFESSIONAL\* brand is your guarantee. We are your indispensable business partner, delivering support, services and leading-edge health, hygiene and productivity solutions that provide tangible value every day, everywhere.

### We Listen

Our national network of distributors and sales representatives are on hand when you need them – the answer to any query you may have is simply a phone call away.

### Leaders in Innovation

We are always at the forefront of technological advancement, designing and delivering state-of-the-art products and systems to ensure you always have the best solution for the job.

### Sustainable Environmental Practices

At KIMBERLY-CLARK PROFESSIONAL\* we focus on the big picture. Our world-class Environmental Management system is based on ISO 14001 and the highest international standards. We source raw materials from renewable resources and continually find innovative ways to minimize energy usage, water usage and waste, to help minimize our environmental impact at every single stage of our product's life cycle.

## Food Processing Solutions

Improving hygiene, efficiency and cost effectiveness

# Hand Hygiene Solutions

## Washing and drying your hands

When people need to wash their hands frequently in busy environments the best solution is one that is:

### Reliable, Robust and Low Maintenance

The No-Touch Roll Hand Towel Dispenser is a high capacity system which has a stub roll facility. This means less waste, constant availability and reduced maintenance time and costs. With rolls up to 304m in length, the system helps to reduce the need for regular dispenser refilling.

### Encouraging Hand Hygiene

The improved hygienic No-Touch system presents a fresh individual towel ready for use, touched only by the user. Hand Towels reduce bacteria on the hands by up to 77%<sup>1</sup>.

### Kind to Hands

KLEENEX® Luxury Foam Frequent Use Hand Cleanser creates a rich foam lather which stays on the hand longer for a luxurious wash. This product is gentle on the hands where multiple washes per day are required.

### Cost Effective

SCOTT® Roll Hand Towels are made from AIRFLEX® Highly Absorbent Fabric which offers consistent and excellent drying performance, reliability, and value in use.

### Innovative

We offer an innovative range of electronic rolled Hand Towel and Skin Care dispensers which provide even higher levels of hygiene and lower cost in use.

SCOTT® Slimroll Hand Towel and Dispenser

KLEENEX® Hand Sanitiser Range

# Production Cleaning Solutions

## Cleaning debris and spillages

When people need to remove spills and debris from the line during production, they need a wiping solution that:

- Removes the spillage quickly
- Leaves a clean surface behind
- Does not leave any trace of the wiper in the process
- Is cost effective in use

They need a PPE solution that:

- Protects the process from being contaminated by the worker
- Protects the worker from noise, splashes and sprays
- Is comfortable and fits well

WYPALL® X80 Colour Coded Cloths

JACKSON SAFETY® H20 Metal Detectable Hearing Protection, Corded

## Cleaning during product changeover

When people clean the line during a product changeover, they need a wiping solution that:

- Can tackle dried or carbonised food waste
- Does the job quickly and efficiently using minimal wipers
- Does not leave any trace of the wiper in the process
- Leaves a clean surface behind

They need a PPE solution that:

- Protects the worker from food waste, dust, chemicals and machinery
- Protects the process from being contaminated by the worker
- Is comfortable and fits well

# Deep Cleaning Solutions

## Deep cleaning

When people deep clean the production area, they need a wiping solution that:

- Can tackle a variety of cleaning tasks in all areas of the operation
- Can dry surfaces quickly using minimal wipers
- Leaves a clean surface
- Does not leave any trace of the wiper in the process

They need a PPE solution that:-

- Protects the worker from the food waste, dust, chemicals and machinery
- Protects the process from being contaminated
- Is comfortable and fits well

JACKSON SAFETY® V30 Nemesis VL Eye Wear, Clear

## Other Areas of Expertise

KIMBERLY-CLARK PROFESSIONAL® is dedicated to providing you trusted solutions for your critical activities in food production areas. We also provide laboratory, plant maintenance and washroom solutions to clean, care for and protect your employees and their environment.

## Did you know?

WYPALL® L Wipers are twice as absorbent as other light dried crepe wipers. It means you use 15% fewer to complete the same task.<sup>2</sup>

<sup>1</sup>University of Westminster study Feb 2009. Mean percentage figures used to show change in numbers of bacteria.

<sup>2</sup>Independent market research showed that WYPALL® L10 Wipers, compared with a 1-ply conventional wiper, reduces the number of wipers used by 15%.
